To do that we need to have conversations with many people, which is why we welcome media engagement in the WeThe15 movement. » Their message is cristal clear « Disability is humanity, not an abnormality. Everyone gains when everyone us equal: your family, your friends, your neighbours, your communities, your colleagues, your readers, listeners and viewers. By telling their stories, together we can make a tangible and well overdue difference for the planet's largest marginalised group. » SOURCE: WeThe15 We shall regularly publish and release their communication, in a tribute to our journalist, Rahma Sophia Rachdi, who is wheelchair bound and had to face many obstacles when it comes to her accessibility but also to being included somehow, when it comes to her activity of journalist on the field. We shall also dedicate the publication to come, for WeThe15, because we believe it is a nobel and essential cause, which needed to be supported the most, for our democracies to be in line with the respect of human rights considered as such.

### **WeThe15 MOVEMENTS AIMS TO PROVIDE AND ENGAGE MEDIA AROUNF DISABILITY AND HUMAN RIGHTS**

« Over the next decade the WeThe15 movements aims to provide and engage media around disability and human rights: some of the stories will be about hope and unity, but we'll also not shy away from tackling themes of health, education, poverty, legal representation, employment and social justice. We'll be speaking about stories of:

Human potential, as we put persons with disabilities at the heart of the diversity and inclusion agenda.

Accountability in action, as we implement a range of activities targeting governments, businesses, and the public to drive social inclusion for persons with disabilities.

High-profile campaigns, as we break down societal and systemic barriers that are preventing persons with disabilities from fulfilling their potential and being active members of society.

Solidarity, as we ensure greater awareness, visibility, and representation of persons with disabilities.

Radical change, as we promote the role of assistive technology as a vehicle to driving social inclusion.

Change can start with every media organisation. Change can start with one journalist. Together, we can transform the lives of 15% of the world. Together, we can drive a cultural shift. » Source: WeThe15
